A heartfelt thank you for all the time and effort you put into the Heart & Stroke Big Bike event. What a turnout! We rode the Big Bike through the community cheering to raise awareness and support critical heart disease and stroke research. All in all it was a very successful event and as a team we raised \$1620.

OTA's First Publication

"Sri Lanka's Genocide Against Tamils" is OTA's first publication. This article highlights the statistics and evidence of such genocide occurring. It highlights the actions needed to be taken by world powers to recognize and gain justice for such atrocities. In addition, it raises public awareness about such violations of the code of human rights, which have been ignored for decades.
